Lorena,

Thank you for staying in touch. We are in the process of reaching out to companies equipped to handle medical waste. We are also considering removal of all of the BigBellies and replacing them with standard black receptacles, which LASAN would then service. I hope to have a definitive plan by the end of this week. I will update you when I have more information.

Good evening Ellen,

I would like to follow up and see if I can help with reaching out to Clean Harbor for assistance with removing the hazardous waste that is being comingled with the trash inside the bigbellys stations. As I mentioned in my email, unfortunately, we do not have the materials/equipment to remove the syringes from the bigbellys and we are not permitted to take it to the City's sanitation yard for proper disposal.

Our work in Little Tokyo demonstrates our ability to provide benefit to the business owners in your Business Improvement District. We are grateful for your continued partnership and support and look forward to finding innovative ways to support all the district clean up needs and services. While our Corpsmembers may not be able to remove hazardous waste, I want to make sure we bring to you the assistance of other active cleaning companies that can.

Please let me know if you have any questions or would like my help in reaching out to Clean Harbor.

Thank you,

Lorena Umana

Good morning Ellen,

Just want to bring to your attention the high volume of syringes being toss inside this bigbelly.

I cannot have the corpsmember driver service anymore bigbelly's under these conditions. It's a safety hazardous matter taking syringes to the City of LA sanitation site. I'm going to attach a list of Call Active Clean up companies that can come out and service these types of matters.

Please advise.

Thank you,

Lorena Umana

Lorena,

Thank you for staying in touch. We are in the process of reaching out to companies equipped to handle medical waste. We are also considering removal of all of the BigBellies and replacing them with standard black receptacles, which LASAN would then service. I hope to have a definitive plan by the end of this week. I will update you when I have more information.

Good evening Ellen,

I would like to follow up and see if I can help with reaching out to Clean Harbor for assistance with removing the hazardous waste that is being comingled with the trash inside the bigbellys stations. As I mentioned in my email, unfortunately, we do not have the materials/equipment to remove the syringes from the bigbellys and we are not permitted to take it to the City's sanitation yard for proper disposal.

Our work in Little Tokyo demonstrates our ability to provide benefit to the business owners in your Business Improvement District. We are grateful for your continued partnership and support and look forward to finding innovative ways to support all the district clean up needs and services. While our Corpsmembers may not be able to remove hazardous waste, I want to make sure we bring to you the assistance of other active cleaning companies that can.

Please let me know if you have any questions or would like my help in reaching out to Clean Harbor.

Thank you,

Lorena Umana

Thank you for letting us know. We definitely don't want anyone exposed to a serious health hazard.

Ellen

Understood. Will other services continue such as street maintenance?

Ellen

Good morning Ellen,

Just want to bring to your attention the high volume of syringes being toss inside this bigbelly.

I cannot have the corpsmember driver service anymore bigbelly's under these conditions. It's a safety hazardous matter taking syringes to the City of LA sanitation site. I'm going to attach a list of Call Active Clean up companies that can come out and service these types of matters.

Please advise.

Thank you,
